

OBSOLETE

Part Number: M12MLED-0

Specification

OBSOLETE

The M12 LED High Performance Flashlight establishes a new benchmark for 12V flashlights, bringing new levels of versatility, performance and durability to the industry. Its powerful LED produces 800 Lumens of high definition light output, and it can cast a beam beyond 340m. The M12MLED-0s sliding head allows users to adjust their beam pattern from a flood to a spot effortlessly, and it features three output modes for high, low or strobe use. The body is built from machined 6000 Series Aluminium with a type II anodised finish and can handle anything it may encounter through years of professional use
