

M12 High Performance Area Light

Part Number: M12AL-0

Specification

M12 High Performance Area Light
Take Anywhere, Hang Everywhere. The M12 LED High Performance Area Light gives its users the ultimate flood light for on the go use and adapts, performs, and survives to any work environment its users come across. The M12AL-0 can be used in virtually any workspace with its compact size and integrated hanging features like its strong magnets, spring loaded clamp, key hole hanger, and wire hanger. This 12V compact LED flood light is capable of lighting up a large workspace for extended periods of time, as it provides 1,000 lumens of high definition light output in its high mode, 400 lumens in medium and 200 lumens of output in low mode. It uses high quality LED with a neutral white colour and a high colour rendering index paired with a MILWAUKEE designed reflector to produce an even beam pattern. The M12 LED High Performance Area Light has an impact and chemical resistant lens able to withstand the toughest of job site conditions. The combination of these technologies offers professionals the highest quality LED lighting solution, on or off the job site.
