

Milwaukee M12DCAG-0 - 12V Airsnake Drain Cleaning Air Gun Skin

Part Number: M12DCAG-0

Specification

Milwaukee M12DCAG-0 - 12V Airsnake Drain Cleaning Air Gun Skin

The M12 AIRSNAKE Drain Cleaning Air Gun is the industrys first drain cleaning machine designed to clear through drain covers and traps with powered air. The M12 AIRSNAKE allows users to clear clogged drains while leaving fixtures and drain covers intact. Designed for 2.54-10.16cm drain lines, the M12 AIRSNAKE has the power to clear up to 10.6 meters, past vent stacks and tees while the variable pressure dial allows for control on delicate pipe systems. Powered air flushes water out of pipes, completely removing grease and sludge from pipe walls. With the ability to work over sinks and eliminate retrieval mess, Drain professionals, plumbers, and facility maintenance will be able to work faster when clearing clogs. The M12 AIRSNAKE is powered by REDLITHIUM-ION batteries, which deliver more work per charge and more work over pack life than competitors. REDLINK Intelligence provides optimised performance and overload protection against abusive situations.
